

Abbey Veterinary Services

RAPID DIAGNOSTIC HISTOPATHOLOGY & CYTOLOGY

Tel: + 44 (0)1626 353598

e.mail: admin@abbeyvetservices.co.uk

Web: www.abbeyvetservices.co.uk

Fax: + 44 (0)1626 335135

IN CASE OF BREAKAGE

Samples in this package are for histopathology and cytology and they are not infectious. If there are glass slides, they are air dried and sterile. If the package contains tissue in fluid, the tissue is fixed by that fluid which completely sterilises it. The fluid is a very weak solution of fixative (4%). If washed off immediately in water it should have no adverse effect. If it is in contact it can sting especially if it gets into cuts (like lemon juice).

To be placed **inside** your package
